

## IK Multimedia TONEX Tone Partner Collections

IK Multimedia releases new TONEX Tone Partner Collections with over 100 collections on offer now representing nearly 2,000 new Tone Models to play and record across the entire TONEX ecosystem including TONEX Pedal, and bringing the total of available Tone Models on ToneNET to over 15,000. Tone Models are IK's ultra-accurate AI Machine Modeling recreations of iconic guitar amps and effects, connecting users to an endless stream of the most sought-after guitar gear, captured by today's top tone designers and fellow users.

All Tone Partners have been chosen for the gear they own and their expertise in creating and capturing great tones. Here is the list of select Tone Partners who have joined the TONEX ecosystem for the launch with their premium collections: Amalgam Audio, Big Hairly Guitars, ChopTones, Dan Leggatt, Drum And Tones, Gitarrenlehreronline, IP Sound, Jason Sadites, Keith Merrow, Live Ready Sound, Mad Steex, Matt Fig, Rattly And Raw, Sonic Drive Studio, Taylor Danley, The Studio Rats, Tone Junkie, Top Jimi, TSFAHTPS.

Tone Partners are active creators who will regularly add new collections to the store with even more collections becoming available as new Tone Partners come onboard. Covering all styles and genres of music, Tone Partner Collections are an exclusive and affordable way to quickly expand any player's tone toolkit. Each collection is meticulously captured to each Tone Partner's specifications with their

preferred settings, mics, outboard gear and cabinets using TONEX's award-winning AI Machine Modeling technology. Users will find incredibly realistic captures of amps from vintage to boutique to modern high-gain, plus classic and modified preamps, pedals and everything in between. Many collections also offer amp-only DI captures so users can add their favorite cabinet IRs or IK's VIR Cab technology.

Users can demo any Tone Partner Collection before purchasing. Furthermore, over 100 new free Tone Models from these collections are available to all TONEX hardware or software users to download for free and use just like any TONEX Tone Model to record, play or practice.

Tone Partner Collections can be browsed and purchased via ToneNET, IK's online tone-sharing and social platform, or within any version of TONEX Mac/PC including the free TONEX CS. After purchase, Tone Partner Collections become activated inside TONEX software by selecting "Restore Purchases" in the Account panel, which instantly downloads all collection Tone Models to the user's local library ready to play.

Tone Partner Tone Models work seamlessly inside AmpliTube 5. The TONEX amplifier and pedal gear models function just like other AmpliTube amps and pedals. They can be used together to build custom signal chains and save as presets for easy recall. The combination of TONEX and AmpliTube 5 represents the most advanced tone powerhouse on the planet today.

Best of all, AmpliTube 5 presets created using Tone Models can now be uploaded to ToneNET's preset sharing section. Tone Partners and users alike can combine their favorite Tone Models with all of AmpliTube 5's hundreds of stompboxes, cabs, mics, rack FX and more to craft complete rigs and share them with their fellow users around the world.

TONEX Tone Partner Collections are available now to browse and purchase via ToneNET and within any version of TONEX for Mac/PC.
