

HH Electronics Tensor Solo

UK-based HH Electronics has announced the launch of Tensor Solo, an ultra-portable, all-in-one column PA. Tensor Solo, available in black or white, delivers a superior audio experience from a 4-piece 'slot together' design which can be set up in seconds. Comprising a powerful 8" subwoofer and 6 x 2.75" drivers, Tensor Solo is perfect for a host of applications where crystal clear audio coverage is required for 100+ audience members, effortlessly meeting the needs of small gigs, houses of worship, education settings, speech presentations and much more.

Microphones and line level devices such as keyboards can be connected simultaneously to the Solo's 4-channel mixer, which has an adjustable reverb. Bluetooth devices are able to connect for wireless audio streaming, whilst on-board DSP provides 4 EQ presets for music, vocal, natural and live. Comprehensive audio protection prevents overloading and damage, and the unit comes complete with carry case and slip cover.

HH Electronics launches Tensor Solo

Thursday, 31 August 2023 18:06

With Tensor Solo, HH Electronics continues to draw on five decades of pioneering heritage to deliver a versatile, competitively-priced, high-quality package, which directly addresses the needs of the market.
