Tone2 Icarus v2.0.8

The update to v2.0.8 is available for free. It extends the PC version with VST3 support and some enhancements. Icarus 2.0.8 is downward compatible with all previous versions. All existing song projects and patches can be loaded without any further steps necessary.

New features:

- HiDPI support for the VST3 version.
- Minor enhancements for the VST3 plugin.

Fixes:

- The VST3 plugin did not properly sync the BPM-rate.
- Workaround for some DAWs that did not update the GUI properly after re-sizing it.

Tone2 is currently porting their plugins to native M1. The updates will be available for free in Summer/Autumn 2022.
