

### Arturia FX Collection 3

FX Collection 3 now includes 26 effects, from classic studio distortion units to cutting-edge granular processing, along with over 800 expertly-designed presets, A/B comparison, and a wealth of workflow enhancements for fluid DAW production.

Combining engineering expertise, a passion for supreme sound quality, and over two decades of virtual modeling innovation, FX Collection 3 is Arturia's answer to musicians, producers, and artists seeking a refreshed approach to music production. Simultaneously focused and expansive, this feature-packed suite of 26 hand-picked effects empowers sound explorers with the most creative and flexible tools they need to change their production game.

What's new in FX Collection 3?

- Dist TUBE-CULTURE - Ignite your mix with lifelike tube warmth with this modern distortion classic, perfect for breathing life and crisp color into any sound - from soft saturation to fizzing crunch.
- Dist OPAMP-21 - The original 'go direct' guitar pedal turned studio cult classic, enhanced for your virtual studio; instant amp-like harmonic detail or high-gain crunch. Choose your op-amp flavor.
- Efx FRAGMENTS - Explore glitchy stutters, grainy stereo ambience, experimental textures, and beyond with next-level granular processing.

Divide, transform, and rebuild any sound.

- Tape MELLO-FI - Sprinkle lush lo-fi vibes over any sound with this vintage tape warmth plugin inspired by the legendary Mellotron keyboard. Simple, streamlined, sublime.
  - Oversampling - Both Dist OPAMP-21 and Dist TUBE-CULTURE feature variable oversampling, letting you choose between two modes prioritizing either supreme audio quality or lower CPU usage.
  - A/B comparison - Quickly compare, copy, or bounce between two distinct configurations of an effect, whether it's an existing preset or your own custom settings.
- Improved interfaces - Enjoy streamlined performance, easier preset browsing, smoother loading times, and more thanks to interface overhauls for every title in FX Collection 3.
