

KS AUDIO selects a new sales structure for the german-speaking region

The Corona pandemic has "inspired" KS Audio to constantly improve their sales and service for customers despite restrictions.

The company "Soundtemples GmbH" from Vorarlberg (AT) has therefore successfully taken over the distribution of KS AUDIO for Germany, Austria and Switzerland (DACH) from 01 April 2021.

The owner of the company is Borut Gomilsek, who has been able to optimise a lot through his decades of experience in the industry. With the help of a new online shop, an enlarged warehouse and social media marketing, the company is able to reach customers better and enables faster delivery of products.

For Switzerland, a close cooperation between the trusted address for Switzerland, Leu Sound AG and the new Soundtemples GmbH was chosen.

Peter Kuhn remains sales manager and contact person for all regular customers.
