

AVPro Edge AC-MXNET-10G-SW24C

VPro Edge has introduced the AC-MXNET-10G-SW24C, a 24-port 10 Gig hybrid PoE++/PoE+ first-of-its-kind switch for A/V professionals; providing category-defining performance, features, and world-class reliability. This 24-port 10 Gig switch seamlessly supports wide-ranging Audio Video-over-IP (AVoIP) applications, including AVPro Edge MXnet, AES67, Dante, SDVoE, and more. The AVPro Edge AC-MXNET-10G-SW24C is available now.

“In 2022, AVPro Edge introduced the industry's first 12-port 10 Gigabit PoE++ switch, continuing our brand legacy of bringing innovative high-performance solutions to A/V integrators,” explained Matt Murray, CTO at AVPro Edge. “Our newest 24-port hybrid PoE++/PoE+ switch enables integrators to deliver ultimate SDVOE 10 Gbps AV-over-IP ecosystems while establishing a new benchmark for professional PoE++/PoE+ solutions to enhance installation efficiency and increase system performance.”

The AC-MXNET-10G-SW24C is pre-configured with Quality of Service (QoS) settings optimized for AES67, Dante, and SDVoE multicasting. These settings prioritize multicast AV packets above all other network traffic, minimizing latency and eliminating packet loss to ensure high-quality, uninterrupted multicast performance.

AVPro Edge introduces a 10 Gig PoE Switch

Mittwoch, 28. Februar 2024 17:03

AVPro is the first professional AV manufacturer to implement QoS pre-configurations specifically for Dante and SDVoE traffic, enhancing AV-o-IP performance in residential and commercial installations.

AVPro Edge products include a 10-year, advanced-replacement warranty to provide integrators peace of mind, knowing they have installed a product built to last from a trusted manufacturer committed to the Pro-A/V channel.
