IK Multimedia adds 8 new bonus Tone Models to the Joe Satriani Amp Vault Signature Collection for TONEX. Based on Joe's current touring rig, the custom-made Dragon amp by 3rd Power Amplification is now available as a free download to all paid Joe Satriani Amp Vault Collection users. This exquisite amplifier was captured just before leaving on the "Best of All Worlds Tour" with Sammy Hagar. Dialed in by Joe and captured by Jaimeson Durr at Red Rocker Studios in Northern California, these new Tone Models highlight Joe's endless pursuit of great guitar tone and represent the latest chapter in his artistic journey.

"My 3rd Power Dragon 100 amp is a vintage-sounding and modern-featured head inspired by the legendary 1967/1968 Plexi Super Lead 100. It sounds like a roaring Plexi recorded with the best mics, preamps and EQs, perfectly balanced like a great, legendary recorded guitar track. Harmonically rich and touch-sensitive with plenty of gain on tap, there's nothing quite like it. It's my favorite new amp." - Joe Satriani

The Dragon amp is a collaboration between Joe Satriani and 3rd Power Amplification. It delivers a wide range of vintage and modern Plexi tones. The tones are rich and complex, like a great Plexi, with exceptional dynamics that make them fun and inspiring to play. Carefully set up and miked at Red Rocker studio, Joe dialed in each Tone Model and captured it using advanced AI training to achieve unparalleled realism and dynamic response. Every nuance of this harmonically rich

amp comes through in every capture. Notes bloom with a velvety texture, making both single lines and chordal parts ring with authority and clarity. The Dragon amp Tone Models and Dragon skin are included with all new and previous Joe Satriani Amp Vault Signature Collection purchases. Existing users can add the new Tone Models by opening TONEX, going to the top-right Menu (hamburger) button, then Account and clicking Restore Purchases.

### Collection Overview:

- 8 new captures bringing the total to 67 Tone Models based on Joe Satriani's prized amp collection
- Dialed in by Joe and captured at Sammy Hagar's Red Rocker Studios
- Created using cutting-edge AI Machine Modeling technology with advanced training
- Compatible with all TONEX versions, including the free TONEX CS and TONEX App
- All Tone Models can be loaded to TONEX Pedal or TONEX ONE for live performance

"I just completed the Satch/Vai tour of the USA using just one Dragon head with two matching 3rd Power 4 x 12 cabinets. My new setup for the "Best of All Worlds Tour" with Sammy Hagar will feature an all-Dragon (wet/dry/wet) system with 3 heads powering 6 cabinets. It's an awesome sound!" - Joe Satriani

The Joe Satriani Amp Vault is the 4th Signature Collection in a series designed to bring one-of-a-kind amplifiers and pedals to the TONEX ecosystem. These iconic pieces are highly sought-after for their tonal qualities and have been carefully captured by the artist or brand. Each collection can be used across the entire TONEX ecosystem, allowing players to record and play live with the most sought-after tones. Joe Satriani Amp Vault Signature Collection is available now to purchase via ToneNET and within any version of TONEX for Mac/PC.
